

Werkstoff Standards

Werkstoff Steel stockholders and suppliers, delivering to the whole of the UK. Werkstoff steel grades are used widely in engineering and industry. Each specification is made up of five digits, the first digit is followed by a decimal point then four digits follow thereafter. This system was designed to be compatible with computerisation, but there is little information within each grade to help understand the make up of the steel. Werkstoff Numbers were developed and introduced by the "Deutsches Institut für Normung" (German Institute for Standardisation) a no-profit organization responsible for DIN standards.

We welcome export enquiries for Werkstoff steel. Contact our sales office and consult our [shipping policy](#) for further details.

Werkstoff Steel Range

Below we list our range of Werkstoff stainless steel, tool steel, high speed steel and alloy steel grades.

Stainless Steel	Tool Steel	Alloy Steel
Stainless Steel	Tool Steel	Alloy Steel
1.4301	1.2379	1.6582
1.4304	1.2080	1.6773
1.4541	1.3343	1.7225
1.4845	1.2436	1.0904
1.4404	1.3247	1.8519
1.4547	1.2510	
1.4006	1.2842	
1.4005	1.2363	
1.4028	1.2550	
1.4034	1.2312	
1.4057	1.2311	
1.4542	1.2344	
1.4462	1.2083	
1.4501	1.2767	
	1.2714	
	1.2713	
	1.1730	

Certification

All our Werkstoff steel specifications and grades are available with a cast and analysis certificate, BS EN 10204 3.1 mill certificate or a certificate of conformity. Please request when placing any orders.

Quality Assured Supply

Werkstoff grades are supplied in accordance with our ISO 9001:2015 registration. West Yorkshire Steel aim to satisfy the quality and delivery needs of our customers and we measure our performance by meeting customers' requirements and work to continually improve the service that we provide. In order to achieve this, it is our policy to maintain an efficient and effective Quality Management System based upon the requirements of BS EN ISO 9001:2008. Our staff are appropriately trained in order to effectively implement the Quality Management System. The achievement of quality and continuous improvement is fundamental to all the steel products and services provided by us and are practiced by all employees as an integral part of their work.
