Form of Supply

West Yorkshire Steel supply round bar and flat bar. Full bar lengths of 3 metres are available or we can offer cut lengths and sawn blanks to your required sizes.

- Flat
- Diameter

Applications

EN GJL 350 is suited for applications where the cast iron requires excellent wearing characteristics and when components require a combination of strength and wear resistance superior to those of other softer cast iron grades. Typical applications include bearings, cams, bushes, pistons, gears and dies.

Analysis

Carbon	2.90-3.65%	Phosphorous	0.30% max
Manganese	0.60-0.80%	Sulphur	0.10% max
Silicon	2.10-2.90%	Iron	balance
