Spring Steel

Whatever you want strip, sheet, plate or bar, we'll bounce quality to you everytime

---

Spring steel stockholders and suppliers, delivering to the whole of the UK. West Yorkshire Steel are suppliers of spring steel round bar, flat bar, plate and sheet, we also offer spring steel strip. Bar can be cut to your required lengths. Spring steel plate and sheet can be flame cut or guillotine cut to your requirements. Spring steel strip is available in coil, slit and cut to length.

Spring steel, as its name suggests, is most commonly used in the manufacture of springs. When hardened and tempered (as supplied, or heat treated by the customer) it offer excellent spring characteristics.

We welcome export enquiries for spring steel. Please contact our sales office and consult our shipping policy for details.

If you do no find the spring steel specification you require on our web site please contact our sales team who may be able to assist you with your enquiry.

Popular spring steel grades we supply

CS70 | CS80 | CS95 | CS100 | EN42 | EN43 | EN45 | EN47 | 735A50 | 6150 | 75Cr1 | 301

Form of Supply

Carbon spring steel strip, plate and sheet is supplied in the hardened and tempered and annealed condition. Stainless spring steel is available as strip. Spring steel strip is commonly supplied in coil cut to your requirements.

Bar is available in carbon, chrome vanadium and silicon manganese spring steel types. Supplied in full bar lengths or cut as one offs or multiple cut pieces.

Medium carbon spring steel grades can be flame cut to your requirements. Profiles are commonly normalised or stress relieved to alleviate any hard edges which may have occured during flame cutting.
